JUPITER, FLORIDA, April 8, 2008 – Beginning this week, the Town of Jupiter will schedule FREE wind inspections for its residents by certified Town of Jupiter Inspectors through the [My Safe Florida Home](#) program. Any owner of a single-family, detached, site-built home is eligible for the inspection. Jupiter's inspectors will be performing inspections for Town residents, but non-residents can also receive the service through the State program.

The inspection report will provide information on how your home may qualify for insurance discounts. The inspection process produces a form that outlines recommended improvements to the home to increase resistance to hurricane wind damage, provides an estimate of the cost of the improvements, and estimates insurance discounts that may be available to the homeowner.

In addition, the report will provide the homeowner with a hurricane resistance rating that shows the home's current ability, and future ability with the improvements, to withstand hurricanes.

Jupiter residents should call **561-282-1803** to schedule an inspection appointment, or for more information on the Town of Jupiter's My Safe Florida Home program. For information online, residents can visit www.jupiter.fl.us/neighborhoods or www.MySafeFloridaHome.com.
